

SCHEDULE OF SPECIAL INSPECTIONS

MATERIAL / ACTIVITY	SERVICE	APPLICABLE TO THIS PROJECT			
		Y/N	EXTENT	AGENT*	COMPLETED
1704.3 STEEL CONSTRUCTION Verify fabrication/quality control procedures	In-plant review				
Structural Steel	Review material identification markings and certified test reports				
Weld filler material	Review certificate of compliance				
Installation of high strength bolts	Field review				
Installation of metal panels	Field review				
Welding	Field review				
Details	Field review steel frame				
1704.4 CONCRETE CONSTRUCTION Concrete materials	Review certificates of compliance				
Installation of reinforcing steel	Field review				
Installation of pre-stressing	In-plant field review				
Formwork	Review submittals and field review				
Concrete Operations: a. Evaluation of concrete strength	Review submittals and field testing				
b. Proper mix proportions and mix techniques	Review submittal and field report				
c. Concrete placement	Field review				
d. Concrete curing	Field review				

MATERIAL / ACTIVITY	SERVICE	APPLICABLE TO THIS PROJECT			
		Y/N	EXTENT	AGENT*	COMPLETED
Prestressing	In-plant review or field review				
Precast concrete manufacturer	In-plant review				
Erection of precast concrete	Field review				
1704.5 MASONRY Masonry materials	Review submittals				
Masonry strength testing	Review submittal and field testing				
Construction operations	Field review				
1705.4 WOOD CONSTRUCTION Verify fabrication/quality control procedures	In-plant review				
1704.7 EARTHWORK (Building Area only) Materials	Review submittals and field reports				
Subgrade verifications	Field verification of footing subgrades and proofrolling operations				
Earthwork operations	Field review, density tests for fills and backfills				
Controlled Fill	Field review of placement, evaluation of results				
1704.8 PILE FOUNDATIONS Installation	Field review
